

STATISTICS DEPARTMENT

Chair: M. Daniels
 Graduate Coordinator: J.P. Hobert

Graduate programs are available leading to Master of Science in Statistics, Master of Statistics, and Doctor of Philosophy degrees. The minimum requirements for these degrees are described in the *General Information* section of this catalog.

Both master's programs usually require 2 years of course work including material covered in

Code	Title	Credits
STA 6207	Regression Analysis	3
STA 6275	Statistical Computing I: Optimization	3
STA 6276	Statistical Computing II: Monte Carlo Methods	3
STA 6326	Introduction to Theoretical Statistics I	3
STA 6327	Introduction to Theoretical Statistics II	3
STA 6246	Theory of Linear Models	3
STA 6329	Matrix Algebra and Statistical Computing	3

In addition to earning a "Ph.D. pass" on the first-year evaluation, requirements for the Ph.D. degree include the additional course requirements below:

Code	Title	Credits
STA 7233	Advanced Regression	3
STA 7249	Generalized Linear Models	3
STA 7346	Statistical Inference	3
STA 7466	Probability Theory I	3
STA 7467	Probability Theory II	3

Interdisciplinary programs: The Department offers a co-major program in conjunction with the Fisher School of Accounting leading to the Doctor of Philosophy degree in statistics and business administration accounting. The Department is also a partner in the interdisciplinary concentration in quantitative finance, along with the Departments of Mathematics; Industrial and Systems Engineering; and Finance, Insurance, and Real Estate. For information on these programs, consult the departmental graduate coordinator.

Combination program: The Department offers a bachelor's/master's degree program. Contact the graduate coordinator for information.
