

# HEALTH SERVICES RESEARCH, MANAGEMENT AND POLICY DEPARTMENT

---

*Chair:* Lee Revere, Ph.D., M.S.

*Graduate Coordinator:* Brittany Crown

The Department of Health Services Research, Management and Policy offers degree programs at the master's level. The Master of Health Administration (M.H.A.) prepares individuals for management positions in the health care field. The Department also participates in the Master of Public Health (M.P.H.) degree by offering a concentration in Public Health Management and Policy (more information available here (<http://gradcatalog.ufl.edu/graduate/colleges-departments/public-health-professions/interdisciplinary-departments/public-health-mph/>)). Health services research is a multidisciplinary field that examines the delivery, organization, financing, and outcomes of health care services.

Minimum requirements for these degrees are available in the Graduate Degrees (<http://gradcatalog.ufl.edu/graduate/degrees/>) section of this catalog.

For more information, please see the degree program pages listed on the following tab and our website: <http://hsrmp.php.ufl.edu>.
