CENTERS, INSTITUTES, AND OTHER RESEARCH FACILITIES

The University of Florida has approximately 180 approved Centers and Institutes (http://www.ir.ufl.edu/centers/Active_Centers.pdf) that have been established over the years to enhance the university's teaching and research functions by facilitating interdisciplinary cooperation and providing campus research instrumentation facilities and services. Ten of these centers and institutes with campus-wide missions report to the Vice President for Research: https://research.ufl.edu/about/centers-and-institutes.html

For more information, visit http://centers.ufl.edu/ and http://institutes.ufl.edu/ to contact the centers (http://centers.ufl.edu/) or institutes (http://institutes.ufl.edu/) directly.
